SAVES STRENGTHENS AND RELIEVES THE EYES

IMPORTANT.*—Recent scientific investigation into the prevailing disease and weakness of the eyes of most of our American students, scholars, and office employes who write or read much has developed the fact that a vast number of these ailments are engendered by the unscientific way in which paper is woven in the milling, it being made without any reference to oculistic necessities. The manufacture of* **Bank Stock** *paper by means of perfect mechanical and scientific methods relieves the strain and resultant disease of the eyes caused by using impractically made papers. Advanced educators almost invariably designate* **Bank Stock** *paper as the only blue paper that may be recommended to pupils with absolute safety. Because paper is blue does not indicate perfect paper* **Bank Stock** *paper is counterfeited. The test of genuineness is that watermark ☞ woven in the fiber of the paper and protected by the government. "Hold the sheet to the light" to test it for the patented watermark. None genuine without it ☞*

3 Cormorants seemed to be 2-3

(B + B) [illegible]

[illegible] April 4. The cormorants were

found along over there until the

[illegible] [illegible] [illegible]

apparently [illegible] of them. Were

seen about 9 [illegible] a few hundred

feet off the rocks. Very easy to

approach. Same time with

[illegible] some [illegible] [illegible] [illegible].

Flocks [illegible] [illegible] 2-6 [illegible]

[illegible]. [illegible] to [illegible]. Body

carried low in the water, with

only the [illegible] neck and head

showing. In diving they

take a leap forward at the

same time turning the head downward.

Wings apparently not used in swimming. Were

[illegible] and [illegible] feathers

Often seen standing on rocks

around them [illegible] with their [illegible]

tail abundant at the time
only ~~ ~~ a eight or 10 were seen

April 16

Boulder Bay:

3 peche nests. 4 bird at the
nests 2 pairs each beside nests
nests ~~ ~~ empty. very close
approach could have caught
them. Some voice 'b
rather hoarse squak, some
what like a chuck. at the
same time puffing up the skin
of the head ~~ ~~ as if to
make the head look larger
Nests about 20 feet from
water. built of several
sp of fresh sea weed. Nest
about 15 inches across cavity
about 8 in across and 1 inch
deep. White lined about / 1/2 inch

two other birds were in
the water swimming
Others were seen along [illegible]

Apr 18.

turtle found.

When coming out of the water
[illegible] found with dry [illegible]
but when away from the
water on the sand it walked
[illegible] [illegible] was killed

Eyes [illegible] green
[illegible] blotched
under parts blotched to
[illegible] brown upper parts
blotched with a [illegible] [illegible]
